- OTD-48S OTD-48A
- OTD-64S

Shown with optional corner bumper.

Piper's Open Tray Delivery Carts are designed as the most efficient way to dispense and transport large numbers of meal trays. **Excellent for meal tray delivery and soiled tray retrieval.** Available in a wide variety of sizes and capacities, our carts are the perfect solution to your meal tray delivery system. By offering models to fit any tray system, Piper's carts are the most flexible units in the food service and institutional markets.

Piper's carts are built to high standards, offering a rigid framework and easy-to-maintain aluminum or stainless walls. Solid top and bottom panels are incorporated along with full metal glides rather than bendable wire shelves used by our competitors.

Piper designs, construction, and quality are setting the standard in the food service industry.

LIMITED WARRANTY: PIPER PRODUCTS warrants to the original purchaser parts and labor for a period of twelve (12) months from the date of purchase. See manufacturer's complete warranty for details.

It is our policy to build equipment which is design certified by companies that have been accredited at the Federal Level by the Occupational Safety and Health Agency (OSHA) and ANSI as a National Recognized Testing Laboratory. These companies include CSA International, Underwriters Laboratories, and the National Sanitation Foundation. However, a continuing program of product improvement makes it necessary to submit new models to the agencies as they are developed. Consequently, all models may not bear the appropriate labels at all times.

We reserve the right to change specifications and product design without notice. Such revisions do not entitle buyer to corresponding changes, improvements, additions or replacements for previously purchased equipment. Information is not for design purposes.
