

R4-HF Operator's side shown with optional RBPG protector guard and open under storage with hinged doors

FEATURING "WORKS IN A DRAWER."
QUICKLY REPLACE & REPAIR HEATING ELEMENTS.

The versatile modular design of the Reflections Hot Food units allows you to customize either a cafeteria or a buffet unit to fit your line-up. These hot food serving units will hold pans up to 6" in depth. Reflections units are compatible and will interlock with other Reflections units.

Only Piper's equipment has the advantage of **FoodSafe** technology and certification. This ensures that your food is kept "out of the **DANGER-ZONE**." Food spoilage occurs mainly because of rapidly accelerated bacteriological activity within the 40F-140F "**DANGER-ZONE**."

With **FoodSafe** hot food stays above 140°F longer and cold food is kept below 40°F. Both are key factors in HACCP compliance and the fight against foodborne pathogens.

STANDARD FEATURES

- ◆ Seamless, molded FRP body with smooth exterior and rounded corners
- ◆ 14-gauge stainless steel top with fully welded square turndowns on all sides
- ◆ Enclosed base
- ◆ 20-gauge stainless steel bottom-mounted wet/dry food wells with 12" x 20" die-stamped opening and 1/4" raised beaded edge top centered
- ◆ 2" insulation on sides and between wells, 1-1/2" on bottom, 1" on the ends and 1/4" fiber frax all around
- ◆ 208VAC/1000W or 240VAC/1330W heating element per well wired to a thermostat mounted to the control panel
- ◆ Wells can be run wet or dry
- ◆ "Works-in-a-drawer" allows element access without removal of unit top
- ◆ 4" diameter swivel plate casters with brakes
- ◆ Interlocking mechanism is provided to interlock with other Reflections units
- ◆ Drain option comes with 3/4" FPT ball valve under unit

LIMITED WARRANTY: PIPER PRODUCTS warrants to the original purchaser parts and labor for a period of twelve (12) months from the date of purchase. See manufacturer's complete warranty for details.

It is our policy to build equipment which is design certified by companies that have been accredited at the Federal Level by the Occupational Safety and Health Agency (OSHA) and ANSI as a National Recognized Testing Laboratory. These companies include CSA International, Underwriters Laboratories, and the National Sanitation Foundation. However, a continuing program of product improvement makes it necessary to submit new models to the agencies as they are developed. Consequently, all models may not bear the appropriate labels at all times.

We reserve the right to change specifications and product design without notice. Such revisions do not entitle buyer to corresponding changes, improvements, additions or replacements for previously purchased equipment. Information is not for design purposes.
