The Original Piper Hot Box is the perfect food transporter and meal storage unit for keeping food at appetizing serving temperatures, especially in a situation when external power is not readily available. Fully insulated, it can be used with Canned Fuel for transport of hot food items, or with dry ice for delivering cold foods. It is also available in AC or DC powered versions for complete versatility.

It is lightweight and easy to clean. Construction consists of a strong textured aluminum exterior and a smooth, easily cleaned aluminum interior. A heavy-duty aluminum frame is incorporated for exceptional strength and rigidity, yet it weighs only 25 lbs when empty. The Hot Box is fully insulated to ensure even temperatures.
